If you look at any successful company it is almost a given that you will find a good, hardworking, loyal and committed team behind the success. A successful team is often compared to a properly maintained engine - all the individual parts working together effectively to ensure an efficient output. However, not all engines are made perfectly and similarly, nor are teams. This workshop will provide you with the relevant skills and competencies that will enable you to 'maintain and service' a successful, efficient team.

Who is this course for?

The aim of this workshop is to provide you with the relevant skills and competencies, which will enable you to become an effective leader or member of a team. By the end of this workshop you will know the natural development process all teams progress through and be able to work more effectively as a leader or member of a team.

Do I need any experience?

No. Our trainers have designed the workshop to give you all the information and training you need to develop your skills.

What if I can't fit it in?

The Business Solutions @ Northbrook team understand how hectic life can be sometimes; its for this reason that we're happy to customise this workshop for individual employers and ensure flexible delivery, either on your premises or at Northbrook College (A company costing will be provided once your training needs are finalised).

What do I gain on completion?

Upon completion of this workshop you will receive a Northbrook College Certificate of Attendance, easy to follow handouts, and enough knowledge to proceed and progress onto other workshops and IT courses. Oh, and don't worry - there are no examinations or assessments on this course!
