Who is this course for?

This workshop is for those with no prior knowledge of Sage Line 50 computerised book-keeping and who wish to gain competence in the underpinning knowledge of the Stock Control element of this product. Some students may already be working in a Stock Control environment.

What if I can't fit it in?

The Business Solutions @ Northbrook team understand how hectic life can be sometimes; its for this reason that we're happy to customise this workshop for individual employers and ensure flexible delivery, either on your premises or at Northbrook College (A company costing will be provided once your training needs are finalised).

What do I gain on completion?

Upon completion of this one day workshop you will receive a Northbrook College Certificate of Attendance, easy to follow handouts, and enough knowledge to proceed and progress onto other workshops and IT courses. Oh, and don't worry - there are no examinations or assessments on this course!

Do I need any experience?

A knowledge of manual book-keeping is preferred but NOT essential. However, students should be computer literate and numerate.

What will I learn on this course?

This workshop will cover:

- > Intro to the structure of Sage
- > Create a Company
- > Load/create Customers, Suppliers, Product Records
- > Create Product Categories
- > Enter incoming stock details via Adjustments In
- > Enter details of stock issued via Adjustments Out
- > Zero a stock record
- > Edit stock records
- > Create new stock records
- > Produce re-order list
- > Produce various reports
- > Save updated stock records
- > Print current stock list
- > Backup updated stock file
