

EDI LEVEL 2 AWARD IN THE PREVENTION AND CONTROL OF INFECTION (QCF 13 CREDITS)

What does this course involve?

All qualifications are run within the workplace and certification is gained by the completion of a workbook an internal and external moderation.

What does this course cover?

The qualification aims to familiarise learners with infection control legislation and policies. Learners will develop an understanding of the methods of cleaning and waste disposal that help prevent the spread of infection, also with the personal protective equipment they can use for their own safety. This knowledge will be underpinned through an increase understanding of the causes of infections, the conditions in which they thrive and the ways that they can be spread.

What if I can't fit it in?

The Business Solutions @ Northbrook team understand how hectic life can be sometimes; it's for this reason that we're happy to customise this workshop for individual employers and ensure flexible delivery, either on your premises or at Northbrook College (A company costing will be provided once your training needs are finalised).

What will I learn on this course?

Learning outcomes include:

- > Unit 1 – The principles of infection prevention and control
- > Unit 2 – Causes and spread of infection
- > Cleaning, decontamination and waste management
