

LEVEL 3 CERTIFICATE IN WORKING WITH INDIVIDUALS WITH DIABETES (QCF 20 CREDITS)

This knowledge based course is made up of four mandatory units and further optional units enabling learners to:

1. Explore what diabetes is, the different types of diabetes and how a person centred approach may support an individual to manage diabetes.
2. Explore the risks associated with diabetes emergencies
3. Explore the interventions necessary to prevent type 2 diabetes and their ability to recognise those at risk of diabetes to ensure early diagnosis.
4. Explore the specific medication needs for individuals with diabetes and administer medications, including injectable therapies and be able to perform blood and urine monitoring.
5. Explore conditions associated with diabetes and how they can be prevented and screened for.

Who is this course suitable for?

This qualification is ideal for a wide range of learners who are interested in improving their understanding of diabetes.

Do I need any experience?

No, there are no entry requirements for this course.

What if I can't fit it in?
